Subject: RE: Oregon 303d list?

Yes, thanks Dan. Becky, their listing coordinator, and I will work together on it. Thx.

I will add that I did agree that we would coordinate on messaging, so we may need to allow for a little back and forth on that. What we want to avoid is that either of us is asked to characterize our action and its implications, we do so, and then the other one of us then feels the need to clarify/correct.

Hi Suzanne,

We aren't planning any press releases, etc., but will be posting our decision docs on our website, and ODEQ will send them out to their listserve. I've been in touch with my program counterpart at ODEQ about this. We are still determining our final action and drafting the decision documents. We hope to finalize in the next couple weeks, but are coordinating with HQ and timing is a little unpredictable. I'll provide both ODEQ and you with some factual talking points, in case we get an inquiries. We do anticipate the possibility of the Center for Biological Diversity doing a press release, or some electronic media posting about our decision, based on their interest in our action and their history of doing so. Let me know if you want to talk more about it. Thanks.

jill

Subject: Oregon 303d list?

Hello:

ODEQ press office asked if I had any comms/timing info on upcoming final 303(d) list of impaired water bodies in Oregon.

Are we planning any outreach, messages, etc?

Thanks.

Suzanne
